

Organizing Committee

- **NOC Chair:** Prof. J.M. Gomes da Silva Jr. (UFRGS, Brazil)
- **NOC Co-Chair:** Prof. L. Campestrini (UFRGS, Brazil)
- **NOC Vice-Chair Ind.:** Dr. G. M. Freitas (ITV-Vale, Brazil)
- **IPC Chair:** Prof. Olivier Sename (Grenoble INP, France)
- **IPC Vice-Chair Ind.:** Dr. J.-M. Biannic (ONERA, France)
- **Editor:** Prof. A. Bazanella (UFRGS, Brazil)

IFAC TC Sponsors

TC2.2– Linear Control Systems (Technical Committee Main Sponsor); TC 1.1 – Modelling, Identification and Signal Processing; TC 2.5 – Robust Control; TC 6.4. Fault Detection, Supervision & Safety of Technical Processes; TC 7.3. Aerospace.

IFAC NMO

Brazilian Society of Automatica (SBA)

Important Dates

- **Feb 15, 2018:** Open track session submission deadline
- **Feb 15, 2018:** Draft paper submission deadline
- **May 15, 2018:** Acceptance notification
- **Jun 15, 2018:** Final manuscript submission deadline

LPVS'18 – 2nd Call for Papers

The Organizing Committee has the pleasure to invite you to participate in 2nd IFAC Workshop on Linear Parameter Varying Systems (LPVS'18) to be held in Florianópolis, Brazil, September 3-5, 2018. This LPVS 2nd edition will be jointly organized with the 9th IFAC Symposium on Robust Control (ROCOND'18). Since these two events have a large intersection of topics and possible attendees, the main goal of the joint organization is to allow the simultaneous attendance and therefore to foster fruitful discussions and interactions. With this aim, the social events will be common and a single registration will give access to the technical activities of both events. Moreover, one registration will allow the submission of different papers to each conference, depending on the scope.

Background and Scope: LPV systems and control have been an active topic of research in the control systems community. Motivated by this fact, the first IFAC LPVS was organized in Grenoble, France (2015). The Workshop scope will cover the whole area for LPV systems including:

- **Modelling and Identification of LPV systems.** Focusing on how to obtain LPV models for nonlinear systems, switching systems, time-delay systems, sampled-data systems, systems with saturation, uncertain systems, polynomial systems, etc.
- **Analysis of LPV systems:** stability and stabilization, robustness issues, geometric approaches, structural analysis, etc.
- **Observation and Diagnosis of LPV Systems:** observer design, fault detection and isolation, etc.
- **Control of LPV systems:** Hinf control, optimal control, predictive control, constrained control, fault tolerant control, data-driven control, sampled-data control, event and self-triggered control, etc.
- **Applications of LPV modeling and control:** automotive, aerospace, robotics, chemical processes, biological systems, energy and nuclear, network controlled-systems

Venue : Florianópolis is the capital of Santa Catarina state in the South region of Brazil. It can be easily reached by 1h direct flights from Rio and Sao Paulo. The sea, hills and over 42 beaches make Florianópolis a major destination for tourists from Brazil and abroad. The LPVS'18 will be held at the conference center of Majestic Palace Hotel near downtown Florianópolis. Majestic Palace Hotel is a 5-star hotel offering luxury accommodation, stunning views of the North Bay (<http://www.majesticpalace.com.br>)

Copyright conditions: All publication material submitted for presentation at an IFAC-sponsored meeting (Congress, Symposium, Conference, Workshop) must be original and hence cannot be already published, nor can it be under review elsewhere. The authors take responsibility for the material that has been submitted. IFAC-sponsored conferences will abide by the highest standard of ethical behavior in the review process as explained on the Elsevier webpage

(<https://www.elsevier.com/authors/journal-authors/policies-and-ethics>), and the authors will abide by the IFAC publication ethics guidelines

(<http://www.ifac-control.org/events/organizers-guide/PublicationEthicsGuidelines.pdf/view>).

Accepted papers that have been presented at an IFAC meeting will be published in the proceedings of the event using the open-access IFAC-PapersOnLine series hosted on ScienceDirect (<http://www.sciencedirect.com>). To this end, the author(s) must confer the copyright to IFAC when they submit the final version of the paper through the paper submission process. The author(s) retain the right to use a copy of the paper for personal use, internal institutional use at the author(s) institution, or scholarly posting at an open web site operated by the author(s) or their institution, limited to noncommercial use. Any other use of the paper requires approval by IFAC

(<https://www.ifac-control.org/publications/copyright-conditions>)
